# CADENAS Dentadas

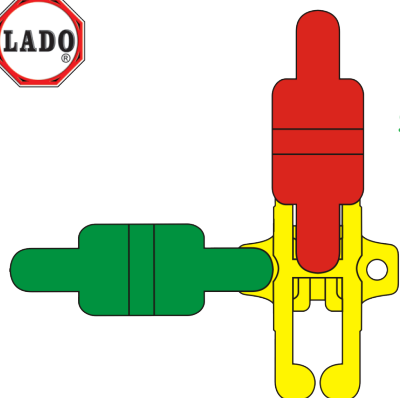

## Guía de modelos para imprimir

Made in Spain 

Ref. 111

# Te presentamos las **CADENAS Dentadas**

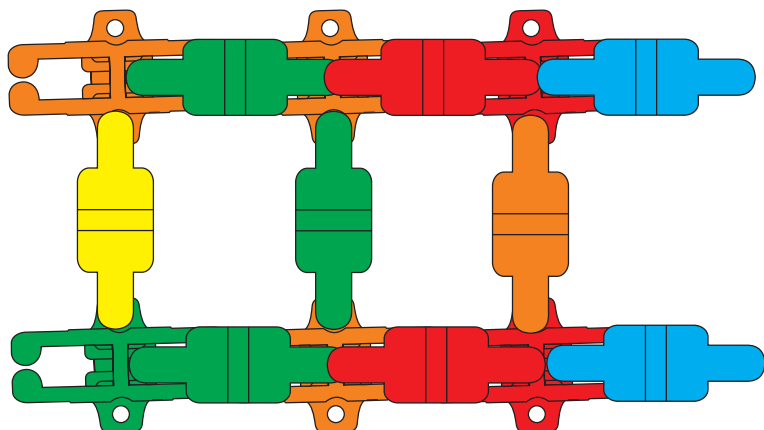

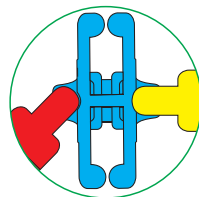

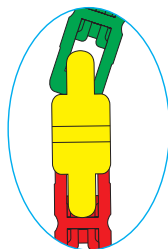

*Sencilla*

*Doble*

Con las **Cadenas Dentadas** podemos crear figuras sencillas y complejas, en plano y con volumen. Encajan entre sí de forma lineal y perpendicular.

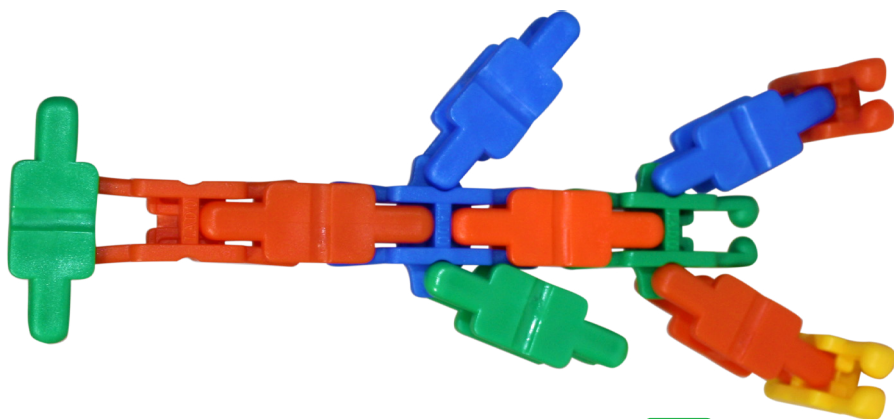

Son **eslabones sencillos y dobles**, del tamaño apropiado para las manos infantiles, con los que adquirirán habilidad, fuerza y precisión manual.

Son también muy útiles como elementos para contar, sumar, restar, realizar series de colores, etc. Observa los modelos que os proponemos a continuación.

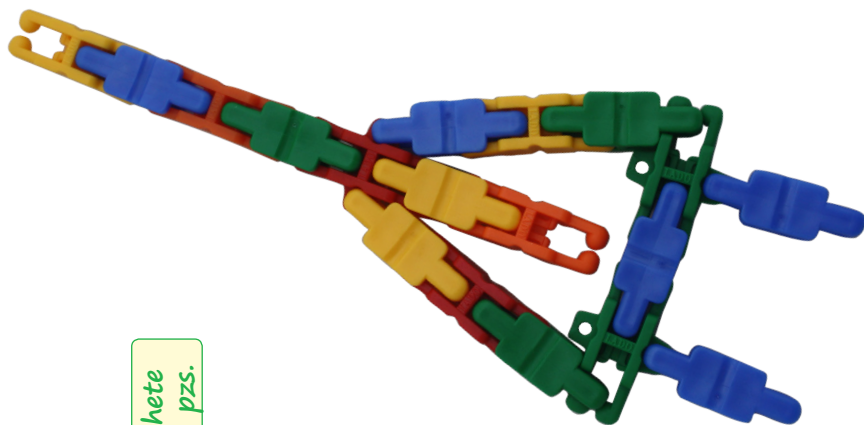

**Detalle técnico:**

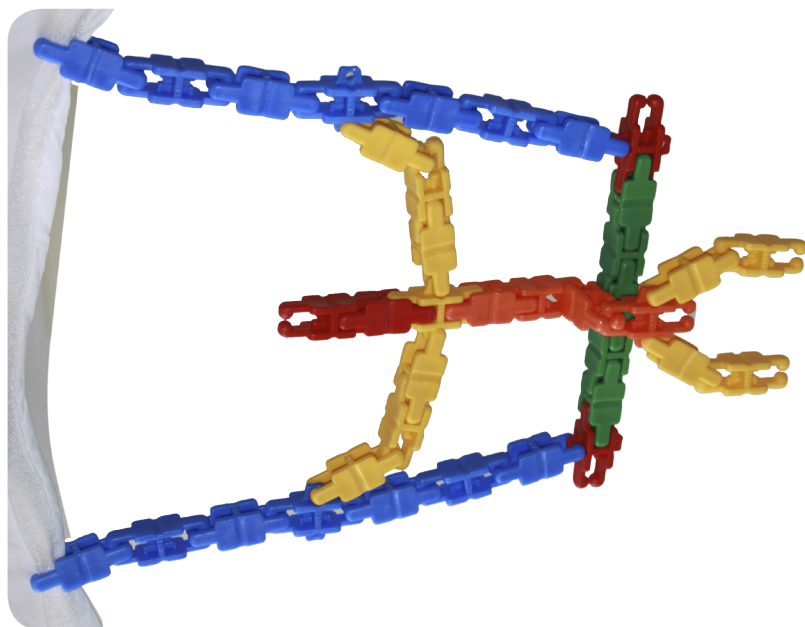

*“La 1ª vez que unimos las cadenas pueden parecer algo duras, esto es para que mantengan la tensión y permitan trabajar la fuerza y la pinza con los dedos durante más tiempo”*

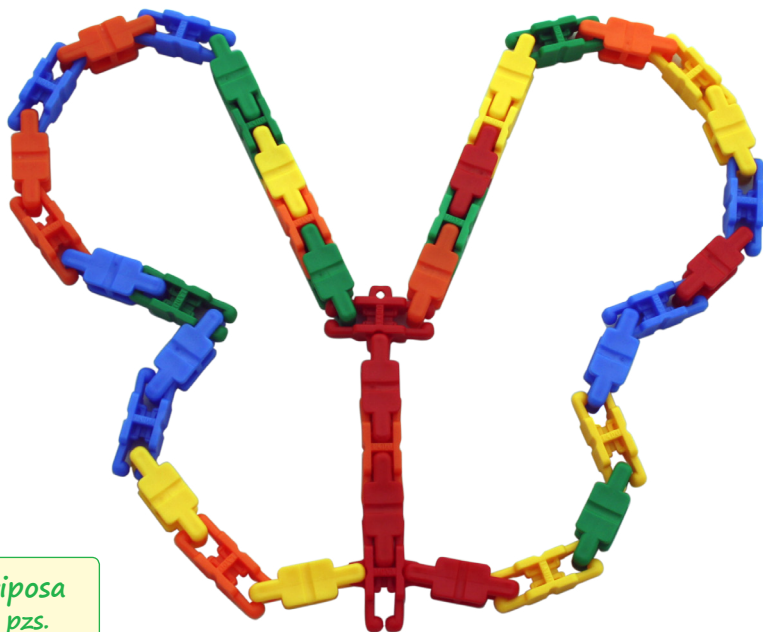

*Patinador  
12 pzs.*

*Cohete*  
18 pzs.

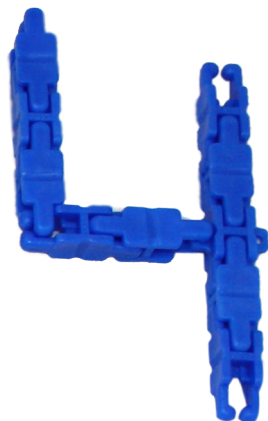

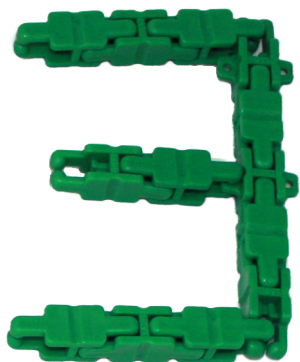

*Columpio*  
32 pzs.
